

**CHAMBER OF SHIPPING OF AMERICA
1730 M STREET, NW., SUITE 407
WASHINGTON, DC 20036**

PRESS RELEASE

**For Immediate Release
September 20, 2007**

THE CHAMBER OF SHIPPING OF AMERICA (CSA) ANNOUNCES RECIPIENTS OF THE 2007 ENVIRONMENTAL ACHIEVEMENT AWARDS.

At a dinner last night, CSA awarded Certificates of Environmental Achievement to 755 vessels owned by forty-five companies that achieved environmental excellence for at least a two-year period. These vessels operated a total of 4,354 years. Sixty-one of the vessels have logged more than ten years each of environmental excellence. Admiral Thad Allen, Commandant of the U.S. Coast Guard participated in the award ceremony.

Michael Bohlman, Director, Marine Services of Horizon Lines, LLC and Chairman of the Board of CSA said, "These awards celebrate the dedication to environmental excellence of our seafarers and the company personnel shore-side who operate our vessels to the highest standards. In today's world, it seems our industry only gets front-page news when spills or other environmental problems occur. It is encouraging to see how many vessels go for years achieving environmental excellence. It should be clear to the American public that we in the maritime industry take our stewardship of the marine environment very seriously."

During prepared remarks, Admiral Allen said the Coast Guard was very impressed with the initiative the industry has taken to recognize the environmental achievement of its vessels. He said the Coast Guard is in the planning stages of establishing a program for Coast Guard recognition of its own vessels which would be patterned on the industry program.

A list of vessels that received awards is attached.
