

Chehalis Generation Facility

**1813 Bishop Road
Chehalis, WA 98532
Tel: 360.748.1300
Fax: 360.740.1891
Email: dmccaig@suezenergyna.com**

Fueled by clean natural gas and operated in conjunction with an advanced emissions control system, the Chehalis Generation facility adds 520 MW of much needed capacity to the region's energy supply. Using a multiple cell air condenser to minimize water usage, Chehalis is among the cleanest and most efficient electric power resources in the state.

QUICK FACTS:

In-Service Date	08/06/03
Percent Ownership	100%
Fuel-Primary	Natural Gas
Fuel Secondary	Low-sulfur #2 diesel
Resource Type	Base Load
Electric MW	520 MW (net)
Electric Customer	Northwest Power Pool
