

Health and Safety Policy

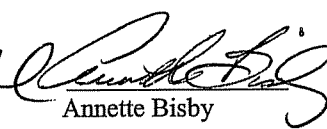

Suez Energy Generation NA Vision

At SUEZ Energy Generation NA, LLC and SUEZ Energy North America Inc. we recognize that outstanding health and safety performance is a critical component of business excellence and that compliance with health and safety requirements is a condition of employment. We are committed to the SUEZ Health & Safety Charter to safeguard the health, safety and physical integrity of our employees and the public. This commitment will be realized through our H&S Vision by:

- Striving for full compliance with, and where practicable going beyond compliance with all applicable federal, state and local health and safety laws and regulations.
- Adequately protecting employees, contractors, visitors, neighbors and the environment from preventable risks.
- Empowering the Safety Committees to investigate, audit, and inspect work practices and the work environment with the expectation of recommendations and actions that will correct and prevent harm to personnel and company property.
- Conducting regular work site inspections and audits and addressing deficiencies and findings expeditiously.
- Promoting employee involvement in the health, wellness and safety programs.
- Providing and maintaining adequate work practices, devices and personnel protective equipment appropriate to all hazards and working conditions.
- Providing education and training and adequate resources to support and improve our health and safety practices and work environment.
- Encouraging and supporting a health and safety culture that is based on continuous improvement and appropriate behavior of all employees to protect themselves, their fellow workers and the public from all health and safety hazards and environments encountered in the workplace.
